

VIP2 Study

No mostrar en "slideshow"

It is a pleasure to inform you that we now are ready for the next VIP2 study, after the very successful VIP1 study last year. Your ICU can now sign up on our web-page: www.VIP2study.com [1].

This study have as its main goal to create and validate a new score for the VIP, using mainly geriatric assessments including to SOFA score. You can read more about it in the attachment.

We hope the next one will be just as successful for our section as VIP1, but this is of course dependent your active participation. Information of the study can be found on the web-pages, but you are also free to contact me as section chair (D.W.deLange@umcutrecht.nl [2]) or PI Hans Flaatten (hans.flaatten@uib.no [3]).
