

Nota de la ESICM

No mostrar en "slideshow"

“There is still time to join ELOISE and add to our growing database on the effects of intermediate care on patient outcomes!

ELOISE has already enrolled 138 European ICUs and 55 of them have already collected patient data (involving a series of questions). We are currently expanding to include more centres in the UK and Spain. Go to website <http://eloise.esicm.org> [1], or write to eloise@unife.it [2] to participate in the next slot of patient data collection from 16th January to 12th February 2012.”
